

# Assessment Submission

Template generated: 2026-01-01 22:10:17

## Links (paste after running the notebook)

Google Doc URL: \_\_\_\_\_

Public GitHub Repo: \_\_\_\_\_

Colab Notebook URL: \_\_\_\_\_

## What this submission contains

- A Colab notebook that authenticates to Google and creates a new Google Doc via the Google Docs API.
- Markdown-to-Doc formatting: H1/H2/H3, nested bullets, checkboxes, mention styling, and footer styling.
- Basic error handling and a README with setup + run instructions.

## How to generate the final PDF with auto-filled links

1. Run the notebook to create the Google Doc and copy the printed Doc URL.
2. Paste your GitHub + Colab URLs into the final notebook cell parameters.
3. Re-run that cell to generate a PDF that includes clickable links.
